

BPI LOAD GUIDE:

BP2090 THE TANK

WWW.BALLISTICPRODUCTS.COM

20GA 2-3/4" & 3" MULTI-METAL WAD (250/BAG)

Ballistic Products wads made in the USA by Claybuster

The BP2090 is a very sturdy, thick-walled wad which was designed originally for 3/4-ounce steel shot loads. It has proven itself to be a very versatile Multi-Metal load for many different non-toxic loads. The large internal capacity of this wad and highly protective wad petals make it a great field performer with steel and SpheroTungsten shot.

The BP2090 is unslit. It must be slit prior to loading with at least 2-3 slits and approximately 80% of the total length of the wad. The BP2090 can handle a wide range of pellet materials, including lead, steel, bismuth, and SpheroTungsten. Failure to slit the wad will produce a potentially dangerous slug-type load that will not release the shot.

Capacity:

- 3/4 oz. steel shot (in 2-3/4" hulls)
- 7/8 oz. bismuth shot (in 2-3/4" hulls)
- 1 oz. bismuth shot (in 3" hulls)
- 1 oz. BPX-12 Devastator Shot (in 2-3/4" hulls)
- 1 to 1-1/16 oz. BPX-12 Devastator Shot (in 3" hulls)
- 1-1/4 oz. SpheroTungsten Original-15 shot (in 3" hulls)

Made in USA

WAD SPECIFICATIONS:

- Overall length: 1.620"
- Shotcup depth: 1.374"
- Product Type: Wad, Multi-Metal capable for field use.
- Size: 20-gauge
- Typical Loads: Non-toxic and high-capacity field loads.
